॥ Empowering and Leading Agri-Operations Excellence ॥

About SIOM

Established in 2005, Symbiosis Institute of Operations Management (SIOM) is a distinguished institute with a niche focus on operations and supply chain management in Nashik, Maharashtra, India. Operating under the umbrella of Symbiosis International University, it has solidified its reputation as a highly regarded educational institution.

SIOM offers a two-year full-time MBA program in Operations Management and Agri-Operations Management, which is designed to develop managerial skills and knowledge in the field of operations and supply chain management. The program covers a wide range of topics such as logistics management, operations strategy, quality management, project management, and supply chain management and the curriculum is constantly updated with current trends such as Blockchain Technology & Supply Chain Analytics.

The institute has a strong industry-academia interface, with partnerships and collaborations with various leading organizations in the industry. It also provides opportunities for students to participate in various conferences, seminars, and workshops to enhance their knowledge and skills.

SIOM has a state-of-the-art infrastructure and facilities, including a library, computer lab, hostel, cafeteria, and sports facilities. The institute also has a dedicated placement cell that helps students secure job opportunities with reputed companies in various industries.

Overall, SIOM is a highly regarded institute in the field of operations management and is known for its quality education, strong industry connections, and excellent placement record

DIRECTOR'S MESSAGE

“

It is my pleasure to share the Interim Placements Report for 2025 with you all!

Experts predict a significant shift in the coming decade, especially towards operational excellence within the agriculture and agribusiness sectors. This transformation has created a growing demand for skilled professionals who understand the complexities of agri-operations. Symbiosis Institute of Operations Management (SIOM) was conceived with the vision of addressing this need, and today, our MBA Agri-Operations Management program stands uniquely positioned to lead this change by equipping future managers with the skills necessary to excel in the evolving agribusiness landscape. Our program emphasizes a blend of agricultural knowledge, operational expertise, and sustainability, molding students into highly competent professionals ready to lead in agri-business.

SIOM is India's only institute dedicated to operations management, with a special focus on agri-operations. Our vision of "Empowering and Leading Agri-Operations Excellence" is reflected in our curriculum, which integrates cutting-edge agricultural practices, supply chain management, and sustainability. The multi-layered mentorship program is designed to guide students through a variety of roles across the agri-operations sector, ensuring they are well-prepared for the dynamic needs of the industry. Our strong industry-academia interface brings real-world challenges into the classroom, enhancing the practical learning experience.

The career profiles our students take on are diverse, reflecting the growing importance of agri-operations in shaping the future of global food systems. Graduates often find themselves in leadership roles in areas like sustainable agriculture, agribusiness strategy, supply chain optimization, demand forecasting, procurement, and logistics management. Our strategic industry partnerships continue to ensure that our students are well-placed to drive innovations in agricultural operations and related fields.

CORPORATE RELATIONS HEAD'S MESSAGE

“

Symbiosis Institute of Operations Management (SIOM) has long been recognized for its unwavering commitment to "Operations Excellence," and in the MBA Agri-Operations Management program, we continue to push boundaries in shaping professionals who are ready to meet the challenges of the agricultural and agribusiness sectors. Our specialized program is designed to empower students to manage and innovate in agricultural supply chains, rural development, and sustainable farming practices, driving transformative growth in the agribusiness industry.

In today's rapidly changing world, agriculture is no longer simply about production; it is deeply intertwined with logistics, technology, and sustainability. Recognizing this shift, SIOM's curriculum integrates cutting-edge practices in agribusiness operations, sustainable agriculture, data analytics, and digital transformation. Our students are equipped to tackle the unique challenges of the agri-operations sector while contributing to its progress through effective, data-driven decision-making.

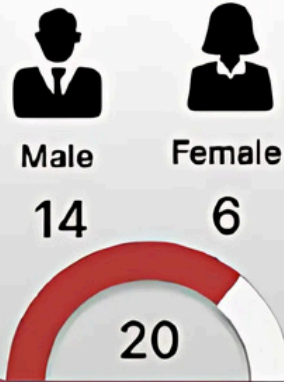

The current batch of MBA Agri-Operations Management students has made significant strides, participating in impactful industry-academia events, such as the Agri-Summit, and engaging with thought leaders through guest lectures. Our alumni, with their extensive experience in the agribusiness and rural sectors, play an active role in mentoring students, offering valuable guidance that bridges academic learning with industry insights.

Through initiatives such as workshops, certifications, and focused pre-placement training, we ensure that our students are equipped with the necessary skills to excel in the competitive agribusiness landscape. Our curriculum, aligned with global sustainability goals and agricultural innovations, ensures that students are ready for key roles in sectors like sustainable agriculture, agribusiness management, and agricultural supply chain analytics. Graduates are well-prepared for positions such as Agri-Operations Manager, Agribusiness Consultant, and Supply Chain Analyst, leading advancements in agri-tech and rural development.
